About Me

Enthusiastic and detail-oriented Bachelor of Computer Applications (BCA) graduate with strong knowledge of programming, databases, and web technologies. Eager to apply academic learning in real-world projects through apprenticeship opportunities. Skilled in problem-solving, teamwork, and adapting to new technologies. Looking forward to contributing to organizational growth while building a strong foundation for a career in IT and software development.

PROJECT EXPERIENCE

Hotel Management System

Final Year Project

- Developed a desktop-based hotel management system using Java.
- Designed and implemented the MySQL database for managing customer details, room booking, and billing.
- Applied Object-Oriented Programming concepts for modular and reusable code.

SOFT SKILLS

- Problem-solving and analytical thinking
- Ability to learn new technologies quickly
- Time management and adaptability
- Teamwork and collaboration
- Communication skills
